

Welcome kindred spirit

It's my life's work to capture images that are a legacy of beauty and romance for the generations to come.

Each couple is its own constellation; and each wedding offers the chance to marvel at the stars that make that constellation align. Ten years of portrait photography have done nothing to dim my feelings of wonder at the tenderness of the beginning of each love story, the challenges overcome, the delight in imagining the future. Love coaxes beauty into the open: it makes you radiant. Using crisp, clean shots and natural light, I look for the aesthetic that celebrates that individual radiance, the colours and textures which draws out your particular elegance. My process is open-ended and beauty-driven! Love, after all, is a kind of perpetual curiosity! As a destination photographer, I believe in the power of location: whether it's ancient architecture in Cyprus, the chalk cliffs of Étretat, or a palazzo in Venice, it's my pleasure to discover the landscape in which you flourish. Let's begin a conversation!

ARTISAN OF LIGHT

Luminous images radiating light, calmness and joy

Cyprus wedding photographer Andreas K. Georgiou creates imagery that is both a legacy, and a narrative: he brings all that he knows, everything that he is, and everywhere that he has been, into each image he creates: a sparkle of white powder from the Cyclades, the radiance of a garden in Provence, sprinkled with a hint of mystery from Prague, some iodine breeze from his home island, Cyprus. Each and every photograph is a patch of light, and his Wedding Photography is a hopeful invitation to travel into the sun itself: luminous, calm, sensual, and as eternal as the light he captured in order to create it: A swathe of luminous landscape opening out in the morning's sunlight!

Elle & Alex - A Romantic Greek Elopement

You should know upfront, this is not a love story. This is a story about love.

This beautiful couple came to Greece under very different circumstances each. Our Groom fled the Kurdish part of Iran and made a conscious choice of working with refugees, as he wanted to make a difference in their lives. Our bride came to Greece from the US as a volunteer at a local organisation that is home to victims of trafficking. Their paths met in Athens while volunteering next to each other at their Church.

The Journal

What I've spent the last decade learning, I share with my soul-driven Couples who yearn for imagery that narrates the retelling of an once-in-a-lifetime wedding day!
