About Abdullah Carpentry

Abdullah carpentry has been here for around more than two decades now, providing the carpentry services within UAE. For a long time, we have been furniture manufacturers in Dubai that custom builds wooden furniture tailored according to your needs. We started our woodwork in Dubai when the roads weren't built and the street lights were far away, we started up a business with the sole purpose of providing the customers what they needed, we made this furniture shop in Dubai where wooden furniture would be made with delicacy and mastery. In the beginning we started off as a custom

furniture manufacturer but with time we evolved digging our roots into interior/exterior renovations & moving/relocation.

The Way We Evolved As an Interior Decor in Dubai

In the times that we built the shop for carpentry services the talent of wood works was small in Dubai nor was there any particular demand for custom made furniture. The CEO, Abdul Qayum started carpentry services in Dubai when his talent was in adolescence. To polish his talent, he set up a furniture shop in Dubai. It was a small shop in the beginning and that too with another partner this furniture store was such small that if it was occupied by a piece of furniture, they had to work outside the shop. Either get yourself out of the shop or get the furniture outside the shop.

Abdul Qayyum made friends with people who were great at what they did i.e. in carpentry services. He learnt from them polishing his skills, one might think that custom made furniture is an easy task meaning it is easy to learn. Well when you are a carpenter your skill set is much more complicated than what people really believe. In Dubai people liked the kind of furniture that people back in Pakistan didn't, to learn that different kind of skill set you need to be an observer and a learner and a lover of the art of wooden furniture and crafts.

ABDULLAH CARPENTRY PROJECTS

Listed below are the projects that we have accomplished with our hearts and soul invested within. We captured our finished projects so that our customers or newbies can see what Abdullah carpentry is capable of. A combination of contemporary and antique art, hand-crafted to perfection and the finished with exuberant paints and polishes. As you dive through our projects you will acknowledge the diversity in our work that only few firms within UAE have been able to accomplish. Our slogan speaks for itself "You Imagine, We Create.". Our carefully picked genuine MDF's and woods mix and matching of paints and polishes makes us one of the leading custom furniture manufacturers within UAE.
