

Client's Testimonials

I have contacted "Hplus Home maintenance" on two occasions now and have been so glad with the Quick service. The most recent was in my house in "Arabian Ranches" at 8pm, we had no water due to a pump non-performance Pressure control leakage and none was available however "MR.MUHAMMAD and His Team" came to my rescue. I was in contact with the Supervisor on WHATSAPP until the work. They have educated Plumber so it was easy to communicate about the problem. I won't deal with anyone else, seriously these guys are the real deal and don't charge high prices. Brilliant team keep up the great work Thank you.
